

De-Mystifying the Neuropsychology Assessment

Wednesday, October 3, 2018 • London Hunt and Country Club
1431 Oxford St. W., London, ON

Dr. Hiten Lad

Clinical Neuropsychologist, Lad & Associates

Dr. Hiten Lad is a registered Clinical Psychologist, with specialization in Clinical Neuropsychology. He offers clinical neuropsychological and psychological assessments and treatment, psychovocational assessments, and psychoeducational evaluations for adults and seniors in motor vehicle accidents, work-related injuries, medical-legal proceedings, academic challenges, chronic pain difficulties, and career changes. His treatment services include individual psychological treatment, cognitive rehabilitation, behavioural therapy and grief and loss counseling for a wide variety of conditions, including traumatic brain injury, stroke, dementia, seizures, depression, anxiety, post-traumatic stress and adjustment disorders.

Dr. Lad is the Practice Director and Owner of Lad & Associates with locations in Toronto and Kitchener-Waterloo where he offers his clinical services. He was an Assistant Professor in the Faculty of Psychiatry and Behavioural Neurosciences at McMaster University and has co-authored journal articles as well as a book chapter related to acquired brain injury.

Dr. Lad's clinical practice has included the role of clinical supervisor for rehabilitation therapists at the Acquired Brain Injury Community Services program at Hamilton Health Sciences, and work in a multidisciplinary team at Toronto Western Hospital providing cognitive behavioural rehabilitation services for the treatment of chronic pain patients.
